

DOES INTER-URBAN AGREEMENT GIVE CITY ADEQUATE PROTECTION

The Capital yesterday set forth certain objections, which have been made by Ald. Armstrong and others to the inter-urban agreement.

These must be fully discussed by the council when it meets tomorrow to finally dispose of the matter. This is the time for criticizing the details of the arrangement. The citizens want to make a bargain with the company. They realize that the project is one that will prove of much value to Edmonton. But they do not wish to see concessions made, which will prove a source of so great annoyance and loss in the future, that they will much more than offset all the advantages which are to be derived from the undertaking.

The change made in the revised agreement in regard to terminals is strictly in line with the ideas expressed in the Capital on Friday and is quite satisfactory. The two changes in the new document which should be scrutinized most closely are numbers thirteen and fifteen.

Clause thirteen reads:
"If the limits of the city of Edmonton shall hereafter be extended, the company shall nevertheless have the right to continue to own and operate its lines within such extended limits, and to collect tolls for freight and passengers thereon as if the said limits had not been extended; provided, however, that at any time after a period of fifteen years from the date of the final passing of this agreement the corporation shall be entitled to take over such portion of the company's system as shall be so brought within the limits of the City of Edmonton, at a valuation to be mutually agreed upon, and if the corporation and the company cannot agree within sixty days, the valuation will be settled by arbitration under the provisions of the arbitration act."

"This clause shall not apply to the lines of the company located on private right of way, not being on a public street; provided always that in so far as the lines which may be taken over by the corporation are concerned, the company shall continue to enjoy the running privileges over and upon such lines on the same terms and conditions as herein provided."

The words which appear in black in the first paragraph, unquestionably allow a competition with the city's own system within its limits, provided that the present limits are extended inside a period of fifteen years. Traffic could be taken on the newly acquired territory and brought down into the central portion of the city, depriving the municipal system of a considerable revenue.

The setting up of a rival to the city's cars within the limits is something which must be guarded against. We are prepared to aid the company as far as possible in bringing passengers and freight from outside points but having established a system of our own to look after purely local traffic, we must protect this. Ample provision should be made that the company should at no time be allowed to pick up either passengers or freight within either the present or the future limits of the municipality.

The words in black in the second paragraph are referred to by Ald. Armstrong as a source of danger.
"By this clause," he says, "the city has no right to take over the lines of the company that are built outside of the present city limits when the limits of the city are extended, if the company builds on a private right of way."

"We expect the city to grow," he continues, "and to grow rapidly. Yet in spite of that we are actually thinking of letting this company get what amounts to a virtual monopoly of all the territory that will be annexed to the city in the future, as far as electric railway lines are concerned."

The Capital fails to follow Ald. Armstrong in this part of his argument. The intervention, if it came into the city on a private right of way, would be in exactly the same position as a steam railway. The word "black" in the second paragraph prevents

any part of the first paragraph from applying to the private right of way. Therefore, the company could not, if it is established this, do business over an originating within the city limits. It would have to confine itself to locally derived traffic from outside the municipality. Its position would be that of any other railway company. We hardly see why the city should require any arrangement to take over the lines or how Ald. Armstrong reasons that the company would be given such a monopoly as he describes. All that we have to guard against in this connection is the establishment of a rival system within the city.

Clause 15 reads:
"This agreement may be modified, varied or altered from time to time as may be necessary in order to meet the then prevailing conditions, and if the corporation and the company cannot agree upon terms of modification, the same shall be fixed by the railway commission."

"This clause takes the place of one in the first draft allowing the corporation to cancel or modify this agreement. Do the words 'modified, varied or altered' in the new clause give the city the power to put the company's cars off the streets altogether at any time, which amounts to the cancelling of the agreement? The power of cancellation, at some time or other, should be given. If this is to be provided for, we cannot see why the word 'cancel' does not appear in this clause, when it appeared in that first draft."

The only other possible objection that the Capital can see is in respect to the handling of freight traffic. The express matter which the company is allowed to carry is limited to perishable products, such as milk, butter and eggs, and "generally such things or parcels as are usually carried in the express compartment of an electric interurban car." Where separate cars are used for express purposes, these are to have the same appearance and flagging as the passenger cars, and are to have the same privileges as the latter. But the freight cars, which will evidently be of the type used on the steam roads, are only allowed the use of the streets north of the C. N. R. tracks.

The wisdom of granting even this limited privilege is doubtful. The carrying of heavy freight through the streets is bound to be a source of annoyance. Mr. Stewart Lyon of the Toronto Globe, to whose letters in the question from American cities the Capital referred the other day, found that opinion there was that freight should be allowed to enter the city only on private right of way. "It is," he will undoubtedly have to come in Edmonton eventually. I imagine it would be wise to restrict freight traffic to the night-time. Clause 15 should allow the city to keep it off the streets altogether when it becomes a positive nuisance.

Another provision should be to the effect that each car should have its own motive force. It would not do to allow a train of cars the privilege of the streets.

Threatened the Priest
Montreal, May 11.—In consequence of threatening language used towards him by one of the residents of the village, Father Phidre Desrosiers, parish priest of St. Urbain-Liens, had an information, and a warrant has been issued for the arrest of Charles Tessier, a painter. The language Tessier used toward the priest was: "You night I will place my dagger into your heart." Father Desrosiers has been actively engaged in the temperance campaign waged in this city and suburbs during the past year, and it is because of the ill-feeling engendered through this that Tessier made the threats.

New Imperial Bank Director
Toronto, May 11.—W. J. Gage, president of the Toronto Board of Trade has been elected a director of the Imperial Bank to succeed the late Charles Cockshutt.

FIRE SWEEPS VAST AREAS

Spread Over an Expanse of Five Hundred Miles.

MANY VILLAGES ARE IN DANGER
Minnesota and Wisconsin Suffer Terrible Losses From Forest Fires Driven by High Winds.

Millwaukee, May 11.—The entire northeastern portion of Minnesota's forest lands is smoldering. Vast regions in Wisconsin are swept by the flames. Several villages are threatened with destruction and large losses seem inevitable from forest fires, according to despatched received here. Reports of vessel captains and train crews entering Superior, Wis., seem to indicate that fires are scattered over an area of at least 500 miles.

Fires appear to be burning in all Wisconsin. Reports from Washburn, Wis., say that the flames have entered the largest tract of standing timber in the state. High winds are fanning the flames and the entire crews of the Hines Lumber Company are fighting it.

Thousands of dollars damage is reported from Washburn. Fires have been raging for two days and the homes of farmers living in the Four Mile creek valley along the Northern Pacific Railway west of the city are threatened. Fires are burning on every side of the city.

At numerous points in Northern Minnesota fires are blazing up threatening the settlers' homes. From the Reservation River, 30 miles beyond Grand Marais to points 50 miles west of Duluth come reports of serious fires. The little town of Tafi, near Grand Marais, was nearly destroyed, only 8 buildings being left standing.

COL. CRUICKSHANK TO COMMAND CAMP

Militia Department Announces Staff Officers for Militia Training Throughout Dominion.

Ottawa, May 11.—The staffs for the militia instruction camps are announced as follows: Col. W. E. Hodgkins in command at London; Brigadier General W. H. Cotton, Niagara, with Lieut. Col. S. J. A. Denison, chief staff officer; Col. T. Denison at Petawawa; Col. W. D. Gordon at Farnham and Major C. M. Nellis, chief staff officer; Lieut. Col. A. Roy at Three Rivers; Lieut. Col. C. C. Pelletier at Lévis; Lieut. Col. J. A. Pigeas at Aldershot, N. S.; Lieut. Col. G. H. Ogilvie at Charlottetown; Col. F. D. Steele at Seville; Lieut. Col. E. A. Cruickshank at Calgary.

CRY STILL GOES UP FOR LABORERS

Employment Agencies Have not yet Caught up with the Demands Made Upon Them.

The employment agencies in the city are still crying out for more men; in fact it does not seem as if the supply would ever meet the demand. A great number of the men who apply for work, state that they are unwilling to go West. These are sent eastward to Regina and other points where men are required, but the greater majority are of course sent west along the main line of the G. T. P. Railway Company.

At the Immigration Hall the daily arrivals average about twenty, the greater number of whom are English. For the most part these are settlers looking for land, but there are a few such as carpenters, bricklayers, tailors who are looking for work in the city.

King's Message to Navy

London, May 11.—The government has just decided to introduce a bill at this session of parliament to eliminate the passage in the King's declaration which is offensive to Roman Catholics.

SEVERE COLD IN FRANCE

Spring Crops Throughout Country Have Been Badly Damaged.

Paris, May 11.—A severe cold spell is sweeping over France. Heavy snowstorms are reported throughout the country accompanied by thunderstorms. Great damage has been done and many cattle have died. Spring crops are seriously menaced.

ONTARIO WOODS IN DANGER

Rain is Needed to Prevent Bad Bush Fires.

Toronto, Ont., May 11.—Unless there is rain soon and heavy rain the woods in northern Ontario are in serious danger from forest fires. Such was the report of Mr. Donald Sutherland, provincial director of colonization, who returned from the north yesterday.

RACE MEET POSTPONED

Ontario Jockey Club Sets Opening Back a Few Days.

Toronto, Ont., May 11.—At the meeting of the Ontario Jockey Club it was decided to postpone the opening of the spring meet on account of the death of King Edward and the funeral being held on the twenty-first. Tuesday, 21st, will be the opening when the King's Plate will be run.

MASONS WILL PAY RESPECT

Will do Honor to Memory of the Late King.

TO BE BIG SERVICE IN WINNIPEG
Clergymen in Manitoba's Capital Plan to Make Memorial Worthy of the Departed.

Ottawa, Ont., May 11.—At a joint meeting of all the Masonic lodges of Ottawa last night it was decided to hold a memorial service to the memory of the late King Edward at All Saints' Church Sunday, May 22nd. The local brethren will march in regalia from the Masonic Hall to the church.

Arrangements in Winnipeg
Winnipeg, May 11.—The members of the "Ministerial Association are planning to make the Winnipeg union memorial service in honor of the dead King worthy of the life work of the departed ruler and as the royal body is being borne in state to its last resting place all Winnipeg will participate in the service which is now being arranged.

Masons of the Province of Manitoba will honor the memory of King Edward on the day of the funeral by a special session of the Grand Lodge of the Province which will convene in Winnipeg on that date.

SEVEN KINGS WILL ATTEND

Many European Monarchs to be Present at King Edward's Funeral.

London, May 11.—The King held a privy council last night at which the number of special memorial sent to Edward VII. was considered. It is now known that seven kings besides George V. will attend the funeral of Edward VII. They are William, Emperor of Germany and King of Prussia; Frederick VIII. of Denmark; King Haakon VIII. of Norway; King Alfonso XIII. of Spain; King Emmanuel II. of Portugal; King Albert of Belgium; King George I. of Greece. Other monarchs will be the Queen of Norway and the Archduke Ferdinand, representing the Emperor of Austria.

Wet Grounds in Calgary

There will be no baseball game at Calgary this afternoon on account of wet grounds. Manager White is getting a new catcher.

ARE RACING WITH DEATH

Dr. Braithwaite Making Record Trip to the Landing.

LESLIE WOODS IS SERIOUSLY ILL

Message Came This Morning and Hudson Bay Asks Dr. Braithwaite to Respond.

Responding to a call from Athabasca Landing, Dr. E. M. Braithwaite, 287 Jasper avenue east, is now engaged in a sensational race with death.

Early this morning the Hudson's Bay Company here received a telegram from the Landing stating that Leslie Woods, their agent there, was very seriously ill, and asking that a doctor be sent up immediately.

Dr. Braithwaite was asked to go, and consented, and at eleven o'clock this morning a large heavy auto, capable of great speed, and driven by E. M. Vardon, 257 Queen's avenue, drove up to the doctor's residence. The doctor climbed in, there was a toot from the horn, and the long race to the Landing was on.

Both men were prepared for a rough and record-breaking run. Just before leaving Mr. Vardon stated that all previous records would be broken. He promised to have the doctor at the bedside of the sick man by seven o'clock this evening. The distance to be travelled is 107 miles, and as the roads are in a frightful condition, it will be a terrific trip, if the run is made in eight hours as Mr. Vardon promises.

True Bill in Murder Charge

Whitely, May 11.—The grand jury yesterday returned a true bill against Archie MacLachlan, charged with murdering his wife and two children on October 29th last.

MANITOBA EDITOR DEAD

J. W. Jamieson was Founder and Editor of Dufferin Leader.

Carman, Man., May 11.—J. W. Jamieson, editor of the Dufferin leader, died at the Carman hospital yesterday afternoon. He was operated on for appendicitis two weeks ago. Mr. Jamieson came to Carman from Tara, Ont., in 1893 and opened a stationery store here the year following. In 1897 he established the Dufferin Leader as a Liberal organ. In 1907 he sold out his interest in the paper, but took over the management of the paper for a company. Mr. Jamieson was 58 years of age. He leaves a wife and two children, the older of whom is taking a musical course in Toronto and is expected home today.

BOY VANISHED FROM PRAIRIE

Great Mystery Surrounds the Disappearance of Little Lad Near Elkhorst, Man.

Elkhorst, Man., May 11.—Another day has gone and no trace has yet been found of the little French boy who strayed from his home on Sunday. The country has been carefully gone over for a distance of seven square miles and every bluff and slough has been thoroughly searched, wells investigated and even wolf dens dug out, but the mystery remains as deep as ever. He was seen about 11:30 by John Heritage and Mark Cousins half a mile distant from his home and about the same distance from where they were, but before they arrived at the spot where they had seen him he had disappeared.

Viola Cream, the ladies' favorite face cream and skin food, a real necessity in spring and summertime, 25c a bottle. Edmonton Drug Co.

Come and see how our shoes differ from others. Kelly and Moore.

Here are the swell vests of the season at Kelly and Moore's.

IS FLAGSHIP DESTROYED?

Sensational Rumors are Current in London Regarding "it."

London, May 11.—Reports are current at Dover of a serious explosion on the flagship "London" of the British Atlantic battleship fleet in Norwegian waters. Reports cannot be confirmed here. Rear Admiral Sir Colin Kepple is in command of the fleet.

A. J. BEST LIBERATED

Not Sufficient Evidence to Justify Charge of Murder.

Windsor, Ont., May 11.—Arthur J. Best, the young husband of Alice Best who was drowned in the Detroit River in March last was liberated yesterday after a hearing which lasted all day. Judge McLaughlin, the extradition commissioner, decided that there was not sufficient evidence to warrant the Windsor police in turning him over to the Detroit police to face a murder charge in connection with his wife's death.

"KEEP AT IT," SAYS FRASER

Advice of Special Envoy of the Board of Trade.

CITY MUST ADVERTISE ITSELF

Eastern Cities, Provinces and States are Working to Keep the People There.

"This city in particular, and the West in general, is amply justified in their campaign of extensive advertising," declared A. G. Fraser, the special envoy of the Board of Trade, who has just returned from a five weeks' tour of the principal cities of Canada and the States, to obtain information as to the most effective methods employed in industrial campaigns.

"We in the West can no longer go on the assumption that the people of the United States are eagerly crowding over the border to take up land here, because there is no other opening. That idea is entirely wrong. All through Washington, Idaho and Oregon intensely active colonization campaigns are being conducted by the various railways, and in the older States and provinces a great campaign has been inaugurated of educating the farmers in the matter of conservation of their land's fertility. Old and abandoned farms are being taken up and the life of the farmer in the east made decidedly attractive. There is nothing for us to do but keep pegging away."

In his trip Mr. Fraser visited Winnipeg, Toronto, Hamilton, Montreal, New York, Columbus Ohio, Detroit, Chicago, Spokane, Portland, Victoria and Vancouver.

In the big cities he saw the prominent business men and the chambers of commerce. The purpose of his visit to Columbus, Ohio, was to see Prof. Orton, of Ohio University, the noted clay expert, from whom he secured information dealing with the clay industry, which it is contended can be developed on an enormous scale in this part of the province.

A special meeting of the Board of Trade will likely be held some time this week to hear Mr. Fraser's report.

THE WEATHER

Forecast—Manitoba, fair and cool today and Thursday.

Alberta and Saskatchewan—Milder with local showers in southern districts. Temperatures have been lower in the prairie provinces, several degrees of frost reported in Manitoba and Saskatchewan. In Alberta rain and snow has fallen. Elsewhere weather

HOUSE WILL MEET BODY

Removal to Westminster Hall to be Great Ceremonial.

FUNERAL TO START IN ABBEY

It will Take Place on the Twentieth—Arrangements are Now Being Made.

London, May 11.—The city is assuming comparatively its normal aspect. Except for the appearance of mourning emblems along the streets, fluttering of flags at half-mast, and the drawn blinds of the leading club houses and government offices, a stranger visiting London today would find little outward evidence of the momentous occurrences which have attracted the attention of the world within the past four days. The ordinary life of the metropolis has fallen back to its accustomed channels.

In the meantime, however, preparations are going forward for the imposing funeral which will be given the late monarch. Arrangements are being made behind closed doors. The chief officers of the royal household and of the Cabinet are shaping preliminaries. The full details of the details have been made public.

Politics Not Discussed.

Chief attention was centered in the first meeting of the Cabinet since the return of Premier Asquith following the death of King Edward. It does not appear, however, that the ministers gave any special consideration to the momentous political questions now pending. They discussed the appointment of a committee to revise the Civil List as it is necessitated by the change of the sovereign. The question of the future policy of the government in regard to constitutional issues was touched upon, but any conclusion was not an announcement to that effect was made.

Moving King's Body.

Contrary to the original intention that the body of King Edward should be quietly and privately removed from Buckingham Palace to Westminster Hall on Tuesday next, it now has been decided that the removal shall be accompanied with considerable ceremonial, and the cortege will be an imposing military spectacle. The Commons will assemble in the morning and repair in a body to Westminster Hall to receive the body.

Following the three days on which the body lies in state it is probable that instead of the funeral procession proceeding direct to Paddington Station the casket will be borne to Westminster Abbey for the reading of the first part of the burial service. According to this plan the service would be completed later in the day at Windsor Castle. All the churches throughout the United Kingdom are arranging to hold memorial services upon the day of the state funeral.

HE CONFESSES DOUBLE MURDER

Says he Only Intended to Frighten Policemen but That Gun Exploded in the Scuffle.

Montreal, May 11.—A full confession was last night made by Timothy Canby, the Liverpool Irishman, who had been arrested on the charge of murdering Constables Foran and O'Connell last Friday night. Canby, who was a watchman at the Ames Holden warehouse, said he had arranged with a second hand dealer to sell him stolen booty and took a bag of them to dispose of the lot. But when he went into the store, Constable O'Connell appeared as he went out. Then O'Connell arrested him, and after a struggle Constable Foran came to the policeman's aid.

Canby said that Canby started in Chaboult street and he pulled his revolver intending to frighten the police away, but it discharged killing Foran instantly. Then, he claims, O'Connell seized his hands from behind, he still holding the revolver, which again exploded hitting O'Connell in the abdomen with fatal results. Canby evidently felt his position keenly, and completely broke down when he made the confession.

WEDNESDAY MAY 11, 1910

For the benefit of the Edmonton Journal, which showed such a feverish anxiety to knock the proposal of Hon. Mr. Pugsley to make an easily navigable waterway from Edmonton to Winnipeg, and which declared that the scheme was as feasible as to build a waterway from Edmonton to the coast, a news item in the Winnipeg Free Press is reproduced. The steamer, the opening of the St. Andrew's lock allowing it to pass up the Red River. The Free Press says:

"The Alberta, while possessing something of a record, has added another to her list. She already has the reputation of being the first boat to navigate the Grand Rapids of the Saskatchewan, having been brought down from Prince Albert two years ago. Prior to that time she was running to various points on the Saskatchewan, including Edmonton, so she has covered a greater mileage of western Canada waterways than any other vessel on these inland waters."

When one steamer has traversed the whole distance from Edmonton to Winnipeg, it should not be a tremendously difficult matter to arrange to have this waterway improved so as to allow other craft to make the journey at any time.

When the late King was in Canada, the point "farthest west" was Sarnia, Ontario. When the present heir-apparent, Prince Edward, pays a visit to the country, one of the features of the journey should be a trip down the Mackenzie river.

Ontario is suffering from too much rain, and the people are beginning to ask if the crops are not likely to be seriously affected by the drowning of the land. From April 23rd to May 4th, it rained every day in Toronto, with two exceptions, and the average for April was 2.93 inches, more than the average for the month in the last twenty years. Whatever else the people of the different parts of Canada have in common, the person who talks about "Canadian weather" as he would of "English weather," betrays a vast ignorance.

Mr. C. A. Magrath, M.P., has issued a pamphlet on the subject of Canadian immigration. The Ottawa Free Press reviews it and says:

"Mr. Magrath is a Conservative and comes from Medicine Hat. Despite these facts, his treatise is sane, able and thorough."

We don't expect party papers to speak well of party opponents, but the reference to Medicine Hat is rather rough on that town. Besides, Mr. Magrath isn't domiciled there. He represents the constituency of that name but his home is in Lethbridge.

WHAT A DIFFERENCE IN FOUR MONTHS

The Capital has had quite a bit to say about the importance of opening up the country which will be served by the A. & C. W. railway. It has also criticized the Bulletin because of the efforts which it is making to put an end to that project. It is, therefore, with no small degree of pleasure that we reproduce from the files of our contemporary an article which appeared no longer ago than January 12 of the present year. It indicates that, before they influences which are willing to sacrifice the city's interests to purposes of their own, obtained control of its columns, the Bulletin was quite aware to all that the construction of a line to Fort McMurray meant to Edmonton. In view of what is now appearing in its columns this article of less than four months ago makes rather strange reading. It is as follows:

"A Winnipeg dispatch announces the formation of a powerful company to go into the oil business in the country north of Edmonton. The list of the men in the company seems to insure that it will undertake the development of these resources of Athabasca rather than that of the stock market

in the eastern cities. If so the results will mean much for the north country, for the whole west, and for this part of the west in particular. An oil well is better than the common run of gold mines, as an investment and the finding of an oil field usually brings quite a rapid development to a district as a gold find, and a much more stable and permanent kind. If the company go into the business of getting the oil out of the ground and bringing it and the by-products out to the world they will create a development in Athabasca which will mean as much to Edmonton and Alberta as Cobalt has meant to Toronto and Ontario. The immediate result would be the expenditure of a large amount of money to the benefit of both the people in the north country and of Edmonton. The opening of the fields would induce further exploration of northern resources and encourage the utilization of those known to exist there.

"One result of this would be to make the name of Athabasca known favorably where it has not heretofore been known, and to induce men of wealth and enterprise in the opening and development of the country. Another would be to give a stimulus to the settlement of the agricultural areas of the north, for the operation of an oil field requires the presence of a large population of well-paid workers, and this means a home market for farm produce, grain and the like. A still wider effect would be the additional notice given Western Canada in general—and the immigration it would induce. The gold rush to California did more valuable service to the United States by causing people to cross the unpopulated plains than it did by the opportunities created of the fields and by the amount of metal taken from the mines. Similarly the commercial operations of oil fields in Athabasca would cause people to flock thither from all parts of the world, and in doing so they must traverse the great farming areas of the prairies. The result of this must be the reputation of that settlement in the Western States, which was induced by the scramble of people to the gold fields. It would give thousands a first hand knowledge of the Canadian West and make them competent and interested advocates of its opportunities."

"From the development of these fields Edmonton would profit largely, immediately, directly and continuously. This city is the natural metropolis of the north country, and its position is to be secured by the construction of railway lines. The Alberta and Great Waterways Railway will give communication with the part of the country in which the oil field is located, while the Peace River and other farming districts to the northwest will also be connected to the city by the construction of lines now projected. The activity throughout the north country which must follow the beginning of operations of the oil resources would have its beginning in Edmonton. This City would be the gateway through which every man and every piece of machinery going into the country would have to pass. It would be the trading headquarters for the country. Its wholesale houses would have an advantage against all others in supplying the needs of the large population which must soon be located there if the venture proved anything of a success. For Edmonton it would be another "Klondike rush," and it would last longer. It is probable that a pipe line from the fields would be found necessary, and Edmonton is the logical terminus for this and the shipping place for the oil coming through it. Altogether the development of this field—the existence of which seems to be assured—means much for Edmonton, much more than can be accurately estimated. It would be of course both foolish and unjust to provoke an influx of people into the north without assurance that the company were going ahead with actual development work. But if they intend to do this the fact should be made known. The board of trade could do splendid work by finding out what their intentions are and by making these authoritatively and accurately known."

It is to LAUGH.

All in the Name

Miss Slummers—We were thinking of establishing some "soup kitchens" in your neighborhood, Mrs. Slum.

Mrs. Slum—Us ladies couldn't patronize anything as common as that, miss; but you might put in a few "soup parlors."—Judge.

Just Good Enough To Be Dangerous

If poor advertising mediums were ENTIRELY worthless they would not be dangerous! For they could not, then, make any appeal whatever to sensible advertisers.

But an advertising medium which has a LITTLE MERIT is, like "a little knowledge," a "dangerous thing." Some business men there are, always, who—for considerations of "cheapness," etc.,—will either rely upon such mediums wholly, or give them an absurdly large part in their advertising campaigns.

Boys Go to Meet Roosevelt

Cincinnati, O., May 11.—Louis and Temple Abernethy, sons of United States Marshall Abernethy, of Oklahoma, arrived in Cincinnati today on their way from Oklahoma to New York, where they will help welcome former President Roosevelt when he arrives from Europe. They are making the trip overland on horseback. The youths are respectively ten and six years old.

Fire Wipes Out Family

Nashville, Ill., May 11.—A fire that destroyed the house of George Douglas, near Coulterville, tonight wiped out a family of five—father, mother and three sons. The fire originated in the basement by the exploding of a lamp; an incubator under the stairway. Half an hour after the blaze started neighbors found only smoldering embers and the charred bodies. The entire family will be buried in the same grave tomorrow.

METEOR SET
BARN AFIRE

Shot Straight From Sky and Into the Earth.

VILLAGERS SAY THEY SAW IT

At any Rate the Barn was Burned and They're Digging for the Meteor.

Dover, N. J., May 11.—An eager crowd is searching today for the meteor which, according to the stories of several eye-witnesses, last night shot straight from the sky and set fire to the stable back of Stearns's hotel. Frank Hazelton was finding a block away, near to p.m., when he heard a great hissing sound and saw what appeared to be a ball of fire descending. It was about a foot in diameter and red-hot.

"It came down like a flash of lightning," said Hazelton today. "It was going so fast there wasn't the least sound of a crash when it went through the roof of the stable. It was just one hiss, one streak of fire, and it was gone—deep in the earth under the building, I reckon. It certainly left a small, as if old Satan's hoofs were phreze. The instant the meteor, for such I took it to be, hit the stable the building burst into a flame. I never saw a fire start as quickly in all my life."

The loss by fire was estimated at \$1,000, the stable having been used as a storage place for the furniture of the Dover lodge of Elks. The meteor has not been found. The ruins are packed high with cleared furniture. By tomorrow this will be cleared away sufficiently to enable local searchers to hunt either the meteor or the hole in the ground where it went—unless it pulled the hole in after it. If there is a hole diggers will be set to work and unless the meteor still is going down toward China it will be roped, tied and put in the Lyceum museum.

GREATEST FISH
YARN EVER TOLD

Suckers Trying to Jump a Dam Kill Themselves in Hundreds and Frighten Village.

Monticello, N.Y., May 11.—So many suckers fish are trying to leap over the dam separating Smith Meadow brook from Smith's pond that persons living near the dam are kept awake at night by the thumping of fish as they strike against the planking of the dam in their repeated and fruitless leaps to get to the coveted spawning waters.

All night long the thumping continues. At first it was not known what caused it and many superstitious persons became frightened. Two heavy boys, one of them Dr. W. W. Olmsted, solved the mystery. Filled with curiosity, they sneaked out of their homes at 4 o'clock this morning and made their way towards the brook. The nearer they came to it the louder the thumping became. Soon it was as if a sound were heard, too, creeping through the bushes the boys reached the margin of the stream, and found themselves in a genuine fish storm centre.

It was not until dawn arrived, however, that they realized fully what the noise meant. Then they saw thousands of suckers trying to get over the dam. The fish would leap from the water, strike the face of the plank dam a resounding thump and fall back into the water. Many dead fish floated in the brook. They literally had battered themselves to death in trying to force their way over a dam that was too high and too steep for them to scale.

When the boys returned and told what they had discovered there was a rush to the brook. Hundreds of the fish were captured and taken home to be eaten. Pity for the others constrained some one to open a waste gate, and, although the force of the water from the pond was too strong, the suckers fought their way against the current and by nightfall all of them had worked their way into the pond. Villagers now are making nets to place across the brook and capture the fish after they have spawned and move down stream again.

Statue to Champlain

Ottawa, May 11.—Steps are under way to erect a statue to the noted explorer, Champlain, in Ottawa.

CROP REPORT FAVORABLE

C.N.R. Correspondents Say Good Progress Has Been Made.

Winnipeg, Man., May 11.—The weekly crop report of the Canadian Northern indicates that good progress is being made in sowing the coarse grains. All the wheat seeding is done, and much of it is showing above the ground. The dry weather has been favorable for sowing, but in many of the districts a rain would now be welcome.

A number of the agents of the company report that the farmers are looking anxiously for a good downpour.

KEEP PEOPLE ON FARMS

Million Dollar Corporation is Founded for That Purpose.

St. Louis, Mo., May 11.—Gov. Herbert S. Hadley was elected president of the National Farm Homes Association, a corporation organized here today with \$1,000,000 stock, of which \$500,000 has been subscribed. The association's purpose is to land money to back to the farm enthusiasts with which to buy farms, the loans to be secured by liens on the land. Archbishop Glennon and Rabbi Harrison enthusiastically supported the movement and were elected to the board of directors. Clifford Pinchoff and F. B. Tucker were elected vice-presidents, John G. Curran secretary and Walker Hill, a St. Louis banker, treasurer.

Double Liability Upheld

Toronto, May 11.—Mr. Justice Maclearen has handed out his own judgment in the case of the Ontario Bank shareholders vs. the Bank of Montreal. His Lordship agrees with the judgment of his colleagues, given about a month ago dismissing the appeal and upholding the double liability clause.

STYLES FOR SPRING SUITS.

Short Coats Are a Decided Novelty in Spring Styles—Side Plaited Skirts. The distinctly new feature of the spring suit is the blouse-coat with a pointed leather belt. Thus far the Russian effect has registered, and there seems to be no doubt that modified blouse modes will have a large representation in the initial showing of spring suits.

Generally speaking, the strong feature is the shortening of the jacket length. This tendency has been evidenced for some time in high class costumes. Other prominent features of the spring coats are the roll collar and left side lap. The former point is often so emphasized as to result in a coat of the blazer type.

Quite a number of the regulation side plaited skirts are to be worn the

ONE OF THE NEW FAVORABLES.

coming spring. This is a style that is generally becoming. Forwards worn with simple all over designs are among the new spring showings. The silk from which this attractive frock is made has a white ground covered with brown rings and is trimmed with bands of brown mesquite. The blouse is a simple tucked affair, and the skirt is made with full length pores at back and front and panel effects between.

JUDITH CHOLLETT.

LION SAVES
KEEPER'S LIFE

Man had Been Attacked by a Hyena Which was a new Arrival.

Oxford, May 11.—Attacked from behind by a savage hyena, which had escaped from its temporary cage, Capt. Snider, an animal trainer, with Wheeler's circus, which has its winter quarters here, was rescued in a most peculiar manner by a vicious lion, whose affection he had won by kind treatment.

The hyena was a new arrival at the menagerie, and was still in its shipping cage, when in some manner it worked loose the small door used for cleaning this box and got out early this morning.

Capt. Snider, who lives with his animals, was eating breakfast when the treacherous beast sprang upon him knocking him down and scattering dishes right and left. As he went down he had presence of mind enough to lie perfectly still knowing that at the least movement the frenzied hyena which was standing over him, would pounce upon and tear him to pieces. He lay in this way for nearly five minutes, when help came from a most unexpected quarter.

A monster lion caged close by, and which, though supposedly untamable—with a record of having killed two former keepers, and seriously wounding two others—had taken a decided fancy to Capt. Snider. This animal had seen the attack upon him by the hyena, and, crouching in one corner of the cage, made a terrific spring to the rescue. The hyena was immediately upon the hyena and pinning it to the ground. The cage also fell upon the keeper's leg, but he managed to extricate it and got beyond the danger line before the hyena recovered from the shock. The hyena was immediately and the ferocious beast was captured and confined in a more substantial cage.

GANDER GAVE LIFE
TO SAVE A CHILD

It was Ten Years Old and had Always Been a Pet Around Owner's Farm.

Montville, N.J., May 11.—"Petie," an old gander, which had been on the farm of Abner Stilton for more than ten years, and which has acted as a nurse to the Stilton youngsters, was killed by an automobile yesterday while protecting Mr. Stilton's year old daughter Agnes from harm.

When little Agnes was threatened by the automobile, just rounding the turn at a lively clip, old "Petie," seeing the danger to his little charge, pushed the child over, throwing her on the side of the road and out of harm's way.

"Petie" had not time enough left to get out of the way himself.

Mr. Stilton took his pet gander to a taxidermist at Montclair and will have it mounted.

PRIEST HOISTED
UP TO DYING MAN

Workman had Been Fatally Injured in an Elevator in the Course of Construction.

Louisville, Ky., May 11.—While more than a thousand people looked on this afternoon, some cheering and others kneeling in prayer, the Rev. Charles Raffo was lifted eighty feet through the air by means of ropes fastened to the fifth floor of an incomplete elevator to administer the last rites of the church to Martin Wiggenton, who was dying on the concrete floor.

Wiggenton, a young iron worker, while on the eighth floor, lost his balance and fell to the fifth floor. The alarm was given and a hook and ladder company responded. Wiggenton, realizing that he was dying, called religiously for a priest. Father Raffo was found and rushed to the scene. When it was seen that Wiggenton could not be gotten down alive the priest asked that he be raised to him.

Hen's Latest Mission

Norwich, N. Y., May 11.—Frank J. Dedrick, of Oxford, has, by supplying his hens with fine coal dust, developed a breed which lay black eggs. The shells have been analyzed and are found to contain particles of coal dust. Experiments are now being made to determine their value as fuel. Dedrick has set several of the hens.

TUNNEL UNDER OTTAWA

C.P.R.'s Proposal to Save Going Through the City.

Ottawa, May 11.—The C. P. R. has filed plans which will be submitted to the Railway commission, of changes which it is proposed to make in the running of its line through Ottawa. A tunnel underneath the city is a part of the scheme.

It is proposed to acquire from the Dominion Government the bed of the Rideau canal, from the Deep Cut to Sapper's Bridge, and after darning it, to run a line along the course of the waterway. Paralleling the Central station property to a point about opposite the new station. From there, it is proposed to construct an underground tunnel under the post office coming out near the waterworks aqueduct property, and so on the present lines of the C. P. R. at the Union station.

Two Days' Work Finding Ring

Chicago, May 11.—Two days' work by plumbers, the removal of two favorties and tearing out of two feet of pipe, ended yesterday in the recovery of a \$1,000 diamond ring belonging to Mrs. Antoinette Mass, living at the Vincennes hotel.

Mrs. Mass accidentally dropped the ring in a wash basin in her room, which is on the fourth floor, Wednesday night. She offered a reward of \$150 for its recovery. Samuel Good and Adair Rudd, plumbers, were summoned and they tore up all the pipe from the fourth floor to the sewer.

The ring was found where the warf empties into the sewer. The plumbers were given the reward.

A Painful Lack.
"I don't know what is the matter with my business. I wonder if it needs a system."
"No! I think not."
"Then what does it need?"
"Business."

Just.
Just a little pleasure.
Just a little pain.
Just a little business.
Just a little rain.
Just a little money.
Just a little gold.
Just a little journey.
Plan the story's told.

In Straight English.
"What are you drinking these days?"
"Just aqua pura."
"Cut it out, my boy."
"What would you suggest?"
"Water is good enough for any one."

Exactly.
"What is a white lay?"
"White?"
"Yes."

Had Case.
"Why doesn't he marry?"
"Heaven!"
"Yes."
"Well, you see, he thinks girls are silly, and he is afraid of widows."

Quite Previous.
"So Cook never fooled you?"
"And you doubted his story from the first?"
"Because I heard it."

Getting Enlarged.
"What is the latest tin, anyway?"
"The world's making a good woman."
"He was never under fire?"
"Yes at the last four phases he worked."

THEY TOOK HIM
FROM HIS BED

DODD'S KIDNEY PILLS CURED MR. F. McALLIFFE'S LUMBAGO

Lachute man, after fourteen years of suffering, finds health and strength in an old reliable Kidney remedy.

Lachute, Que., May 2.—(Special.)—After fourteen years of suffering, followed by dropsical swellings, and culminated in Lumbago, and confined him to his bed, Mr. F. McAlliffe, a well-known resident of this place, has entirely recovered his health, and he says without hesitation, "I am sure I found it entirely to Dodd's Kidney Pills."

It was laid up with Rheumatism, which affected my kidneys," Mr. McAlliffe continues. "I suffered a great deal of pain, especially in my back. I was also terribly troubled with dropsical swellings, and finally after many attempts to get rid of my trouble, I found myself compelled to give up and was confined to my bed with Lumbago. I tried many medicines but they failed to do me any good. Then I turned to Dodd's Kidney Pills, and after taking one box I was greatly relieved. I took several more boxes and found myself completely cured." Dodd's Kidney Pills always cure any and all forms of Kidney Disease.

GET THE
RIGHT ENGINE
ON FIRST PURCHASE

YOU don't want to experiment with an engine. It's too expensive. Buy right the first time and your power troubles are over—at once and for all. The engine question isn't a hard one for you to answer—if you investigate thoroughly. For you will find I H C engines far superior. Others cannot compare in efficiency, simplicity, economy and strength.

Profit by the experience of those who are discarding other engines for the I H C. Buy an I H C first—and save the cost of a "one year" engine.

I H C Gasoline Engines

There is one to meet your needs exactly. For the I H C line offers wide choice. Ask the local I H C agent to tell you about these styles and sizes, I H C Vertical engine—made in 2, 3 and 25-horsepower; Horizontal (portable and stationary) in 4, 6, 8, 10, 12, 15, 20 and 25-horsepower; Famous air-cooled engines—in 1, 2 and 3-horsepower; Hopper-cooled—in 2, 2½, 3, 4, 6 and 8-horsepower; also sawing, spraying and pumping outfits.

International tractors have been successful in every contest, winning the highest honors at home and abroad—an ideal plowing and general purpose tractor—made in 12, 15 and 20-horsepower sizes. Whichever I H C engine you buy will save you a world of time, work and money. You can find no better power to run the cream separator, wood saw, feed cutter, charr, grindstone, fanning mill, thresher, shredder, and the many other machines on your farm. There is no better power to pump water. And the I H C does these things quickly, surely and cheaply. It is the engine that pays for itself—and pays the biggest dividend on its cost.

Investigate. Then judge for yourself. See the I H C dealer in your town. Or, if you prefer, write to International Harvester Company of America at nearest branch house.

Road to Peace River Country has
Been Subsidized.

ACTIVE ON THE NEGRO QUESTION

The Board of Trade will take Matter
up With Minister of the
Interior.

The question of negro immigration into the West was again discussed at the meeting of the Board of Trade held yesterday afternoon. Sir Wilfrid Laurier and Hon. Frank Oliver acknowledged the receipt of the resolution in reference to this matter, which the Board passed some time ago. It was also announced that several other Boards of Trade throughout the West had endorsed the resolution. Winnipeg did not take any action, as they had no information on the subject.

"I understand that Hon. Frank Oliver is to be in Edmonton in June," said President McGeorge. "I think it would be a good idea to arrange a meeting with him then and discuss this question of negro immigration fully."

It was decided to do this, and a motion to that effect carried.

That the Grand Trunk Pacific Railway is the company behind the Pacific Northern and Ontario Railway, was the information disclosed in a letter from the Minister of the Interior. The P. N. & O. wrote Hon. Frank Oliver, had been assisted with a subsidy from the Dominion Government. This is the road that is to build a line up into the Peace River country. But when the G.T.P. will be able to commence operations on the line is very problematical, as at present it is exerting every effort on the main line. The Board decided not to do anything more in this respect just yet. A letter from the Athabasca Board of Trade dealing with the extension of the C.N.R. to that point and asking that the Edmonton board endorse the resolution urging upon the provincial government the guarantee of the bonds of the C.N.R. at the earliest possible moment, was filed.

A letter from Hon. Frank Oliver stating that he would at once take up the protest of the Board against the removal of the customs office from the Post Office building, was read.

The Deputy Minister of Customs also wrote, however, stating that arrangements had been completed to remove the customs office to a building on Fraser Avenue, and that a lease of the building had already been entered into.

The secretary of the Railway Commission wrote that in reply to copies of proposed changes in freight rates, etc., would be forwarded to the Edmonton Board. It was decided that the secretary be thanked for placing Edmonton upon the list.

A. R. Lawrence wrote suggesting that the post office be urged to give an extra mail service in connection with the new tri-weekly midnight Edmonton-Calgary train. The letter was laid on the table until it was ascertained whether this service would be made permanent.

Electric Light Rates Are Low.

M. R. Jennings wrote asking that the Board take up the matter of securing reduced rates for electric lights in illuminated signs. He suggested that the minimum rate of 3 1/2 cents per kilowatt hour be given.

A. H. Dickens remarked that the electric light rate in Edmonton was now among the cheapest in Canada, only several cities where they had water power being lower.

A letter from the Winnipeg Board of Trade with reference to a reduction of telegraph rates was referred to the transportation committee with power to act.

J. E. Landy wrote that he had interviewed the different city papers with reference to publicity and they would be pleased to give space to items advertising the city of Edmonton.

The president and the secretary were asked to nominate a committee to furnish items for the local press.

Theodore Nevill was appointed by the Board to act as delegate to the convention of Chambers of Commerce of the Empire, which takes place in June in London. Mr. Nevill will be in London about that time.

F. R. F. McKitterick, of the Imperial Foundry, was admitted as a member of the Board.

Change Coronation Oath

London, May 11.—King George in a message to the navy extends thanks for the service and fidelity to the late King rendered by the navy and says: "That you will ever continue to be as in the past, the foremost defender of your country's honor. I know full well your fortunes will always be followed by me with deep feelings of pride and affectionate interest."

FIGURES OF THE SEEDING

Ontario and Alberta Lead in Spring
Wheat.

GOOD SHOWING OF FALL WHEAT

Alberta Showed a Considerable Loss by
Winter Killing and Drought in
the South.

Ottawa, Ont., May 11.—The census and statistics office has issued its May bulletin on the condition of crops and live stock for Canada. Reports made at the end of April show that 2000 progress had been made with spring seeding in Ontario, and the western provinces, but that in Quebec and the Maritime provinces little more than a beginning had been made. Ontario and Alberta are in the lead with spring wheat and oats, the former with 89.34 per cent. of spring wheat and 74.74 per cent. of oats in the ground, and the latter with 67.50 of wheat and 53.13 of oats. Ontario had also 72.94 per cent. of barley seeded, and Alberta only 39.17 per cent.

Manitoba and Saskatchewan did nearly equal proportions of wheat, the former with 60.68 per cent., and the latter with 62.66 per cent., but both were slow with oats and barley. British Columbia had a showing of 78.33 for spring wheat sown, of 81.66 for oats and 39.17 for barley.

Ontario and Alberta are the only provinces with a substantial showing of fall wheat and alfalfa in the first named conditions at the end of April was 95.47 per cent., in the second it was only 81.66 per cent. Alberta also showed a considerable loss by winter killing and drought, the proportion of the areas sown being 22.46 per cent., as compared with 6.42 per cent. in Ontario.

In British Columbia the loss by winter killing was five per cent. of the area sown and the condition at the end of April was too.

Hay and clover meadows suffered by winter killing, 12.80 per cent. in British Columbia and 11.65 per cent. in Quebec, but in all other provinces the loss was comparatively slight. The conditions of these crops was good in all provinces, ranging 81.85 in Quebec to 102 in Prince Edward Island. An excellent report was made for all classes of live stock. Their condition for all Canada at the end of April was as follows:

April compared with a standard, being 94.40 for horses, 91.09 for other cattle, 93.70 for sheep and 95.10 for swine.

HER APPEAL IS FOR SON

Queen Alexandra Asks the Nation
for its Prayers.

THANKS PEOPLE FOR SYMPATHY

Queen Mother is Bearing up Well
But is Under a Tremendous
Strain.

London, May 11.—It is officially stated that the Queen Mother is in good health and constitutionally sound. Her physician, Sir Francis Laking, is perfectly satisfied with her condition. It is indisputable that she is living at high pressure. Her friends fear the great nervous strain may cause an attack of the neuritis which has from which she has previously suffered. She is not sleeping sufficiently and her appetite is not good, but though pale she is perfectly composed and has made no change in her daily life and habits. How frequent her visits to the death chamber and protracted vigils at the bed chamber of the King will never be told as she has been able to enter the death chamber unmoved. She is actively engaged in superintending the arrangements for the reception and accommodation of royal visitors.

Alexandra's greatest display of emotion

was manifested on the arrival of her daughter, Queen Maud of Norway, on Monday evening. When little Olaf stood by her side and gently stroking her face, said "Poor Grandmother," the tears poured down her face but they were welcome tears.

"They will do our Queen good," said the court officials.

Thanks and an Appeal

Today the Queen sent out an appeal to the people reading as follows: "From the depths of my poor broken heart, I wish to express to the whole nation and our own kind people who we love so well, my deep thanks for all their touching sympathy in my overwhelming sorrow and unspeakable anguish."

"Not alone have I lost everything in him, my husband, but the nation, too, has suffered an irreparable loss by his best friend, father and sovereign, thus called away. May God give us His Divine help to bear this our heaviest of crosses which he has seen fit to lay upon us. His will be done. Give me a thought in your prayers, which will comfort and sustain me in all that I have to go through. Let me take this opportunity of expressing my heartfelt thanks for all the touching letters and tokens of sympathy I have received from all classes, high and low, rich and poor, which are so numerous that I fear it would be impossible for me to ever thank everybody individually. I confide in your care my son, who I know will follow his dear father's footsteps, begging you to show him the same loyalty and devotion you showed his dear father. I know my dear son and dear daughter-in-law will do their utmost to merit and keep it."

(Signed) ALEXANDRA.

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible

rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere: If not at yours, write for Descriptive Circular to the nearest agency of the

SUBSTANTIAL BUGGIES

WELL MADE—LOOK FINE—PRICED LOW

If the Buggy you buy is made by The Brantford Carriage Co., Limited, you can rest easy about the Quality. Their vehicles require no recommendation from us, you can see them on almost every country road, and you'll notice that they are owned by up-to-date farmers, doctors and merchants. There are two styles that are becoming very popular in Western Canada. Write us direct or see the Cockshutt Dealer about them.

The body of this particular Buggy is made from choice Whitewood, with matted Ash frames, and steel corners. If desired, it is handsomely trimmed with No. 1 leather, has full spring back and cushion top is made of finest 50 ounce rubber in 3 1/2 or 4 bows as desired. Body hangs on Elliptic springs, which are the very latest and best springs made in America. The wheels run on steel axles. The best XXXX Hickory is used for the shafts, which are trimmed with patent leather, quick shifter and anti-rattler attachment. The body is painted black, gear dark green or carmine, with double handsome stripes, and the finish is unequalled—nothing to compare with this buggy for service, durability and appearance.

See The Cockshutt Dealer

The construction of this Buggy is practically the same as No. 209, but the decorations of the body, seat and top are different. The body is painted in various fancy colors and the seat is more elaborately trimmed and filled with fancy bolsters back from the top of the seat panel to the arm rails. It has a spring cushion, strong nickel rail over seat back, nickel arm rails, fancy lining in the top and nickel knuckles on the joints. We are selling quite a large number of this style out West and our customers keep sending us excellent reports about it. You will be thoroughly satisfied with either of these buggies—they are both splendid vehicles to invest your money in.

About Town

This week's tea at the Golf Club has been postponed.

Two billiard tables were being installed in the Y. M. C. A. which will prove a great boon to the members.

The Edmonton branch of the Aberdeen Association will meet in the Y. M. C. A. Thursday evening at 8:15.

A Gaelic service will be held in Huxton Hall on Thursday evening at 8 o'clock. Rev. Mr. Maclean will conduct the service and all Gaelic speaking people are invited to attend.

Chas. May & Co., contractors, commenced work yesterday afternoon on the addition to the Windsor Hotel bar. This 16 feet of new space will result in the Windsor having one of wine rooms in the West.

There was a considerable fall of snow yesterday south of Lacombe and extending to the southern boundary. North of Lacombe rain fell over the greater part of the country. There was a heavy shower in the Stettler district last Saturday.

The passenger elevator, installed by the Ois-Fench Co. in the new post-office started running this afternoon. The machine is operated by a 17-horse power motor, and is the very latest model, direct current, machine manufactured by this company. A freight elevator will also be installed in the same building.

Moore McNichol, the Wetzakian real estate dealer, charged with obtaining money under false pretences by selling certain Fort George property and not turning the proceeds over to the owners, was committed for trial by Magistrate Cowan in the Police Court yesterday afternoon.

The final meeting of the Alberta Women's Association will be held on Saturday, May 14th, at three o'clock in the High School, Strathcona. The girls of standard 7 and 8 of the High Schools of Edmonton and Strathcona, and of Alberta College will be the guests. Professor Alexander has kindly consented to give an address, his subject being "Some obiter dicta on the higher education of women." Tea will be served in the library.

WABUMUN LAKE LOTS

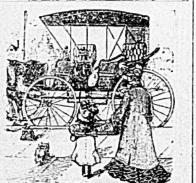

Bidding was good at Auction Sale in Edmonton Theatre.

An auction sale was held in the Edmonton Opera House today at 1 o'clock to sell town lots situated on Wabumun Lake. The lots are on the lake front, just between the beach and the G. T. P. main line.

At first the bidding was slow, but when the more central lots were put up for sale, they were quickly snapped up at prices ranging from \$120 to \$700. The terms of sale were very moderate, only one quarter cash being required; the balance to be paid in three annual installments, with interest at 5 per cent. on unpaid purchase money. Mr. T. A. Markle, the inspector of Indian agents, managed the sale.

Funeral of E. J. B. Pense

Kingston, Ont., May 11.—One of the largest funerals held in the city was that of the late E. J. B. Pense, M. L. A., yesterday to the Carleton cemetery.

FIGHT WILL BE PRESSED

Irish Members will Insist on Veto Resolutions.

FIGHTING FOR THE PARTY'S LIFE

Leaders of Nationalists Say Party Would Fall to Pieces if Issue Were Put Off.

London, May 11.—The feeling of the Irish party is that all questions of compromise or postponement of the veto question is impossible. It would be suicide. The Irish party recognizes that it might be necessary for formal purposes to have a fortnight's delay, but any idea of postponing the veto issue till autumn, still less till next year, because of King Edward's death would cause the Liberal party to fall to pieces. The Irish party's present position is one reason for its existence. If they receded from it their occupation is gone. In the present condition of things people cannot judge the future from any reasonable standpoint but after about a fortnight they will all be at each others' throats again the same as before. The parliamentary session after Queen Victoria's death was one of the most violent for twenty years. Within a month's ressemblance of parliament a dozen Irish members had to be forcibly ejected by the police and the same thing may recur.

What Members Think
The following opinions concerning the possible effect of the King's death on Ireland's cause and politics have been secured from leading Irish members of parliament. Michael Joyce, Nationalist member for Limerick, does not think the King's death will cause any great political upheaval. In any case Ireland's cause marches steadily on. J. H. Hayden, Nationalist member of parliament for Roscommon South, says the Irish party's platform is unalterable, although the King's death may slightly delay them. J. C. Swift, MacNeill, Nationalist member of parliament for South Donegal, declares the death of the King cannot by a hair's breadth affect the determination of the Irish people to push forward their fight for the abolition of the veto of the House of Lords as a parliamentary privileged class who alone stands in the way of home rule for Ireland. The first regulation of the new King is to pledge to support the constitutional government and in the British constitution the King acts on the advice of his ministers on whom rests all responsibility. The change of monarchs alters nothing, the constitution continuing unaffected. The Irish position is unchanged and its future irrevocable.

AERONAUTS INJURED

Had Attempted to Break the Long Distance Record.

Glasgow, Ky., May 11.—About numerous bruises and possibly internal injuries and with only short periods of consciousness, A. Holland Forbes of New York, holder of the John trophy, and C. V. Vance, New York astronomer, who accompanied him in a flight against the balloon record, are lying in a farm house six miles north of Center which is about 20 miles from this city. The balloon "Viking" with which they ascended at Quincy, Ill., is a mass of silk and cord torn beyond repairs.

Convicted of Bigamy

Winnipeg, May 11.—Andrew Watt, convicted of bigamy by Magistrate Daly, and electing to be tried by the Edmonton Jury, was sentenced to two years in jail, within 24 hours of information being laid against him; by second wife, whom he only married last Wednesday. Watt has a wife and family in England of which the bride became aware through neighbors.

Personal

Sears left today to spend three weeks at the coast.

John Blane, provincial librarian, returned last night from a five days visit to Calgary.

Miss Constance Dickey left on Monday morning for High River, where she will enter the hospital as a nurse-in-training.

R. K. T. Catto, and Mrs. Catto, of Aberdeen, Scotland, arrived in the city last night and are registered at the King Edward. Mr. Catto is the last night of the famous Aberdeen derby which goes by his name. Mr. and Mrs. Catto are now on their way home after a trip around the world.

Mr. J. J. Walsh, representing the "Standard of Empire" is in the city today. This "Standard of Empire" is the weekly publication of the "London Standard," and is devoted to promoting British interest in the colonies. Mr. Walsh is travelling through the West on a business trip, in connection with the paper he represents.

The Winnipeg Free Press says: General E. F. Benson is in Winnipeg after a trip through Western Canada made with the view of looking up sites for Canadian homes for retired English army officers. In speaking of the project, a Free Press representative said: "I have formulated no definite plans as yet on account of my present visit being rather a hurried one. After I left Winnipeg I travelled direct to the Kootenay and Arrow Lake districts in British Columbia. I may say that I found there what I consider some very desirable sites for retired officers, but shall do nothing definite until I return to Canada some time this autumn. On my return trip, I visited Revelstoke, made a short stay of several days in Calgary, and then went to Edmonton. Everywhere I found abundant evidence that the reports as to the growth and possibilities of the west have been in no measure exaggerated. In Edmonton, I was especially impressed. I should have liked to have made a longer stay, but my boat sails from New York on May 14."

Donau Won Derby.
Louisville, Ky., May 11.—Donau, the bay son of Wollstone, yesterday captured the Kentucky Derby at a mile and a quarter in the sensational time of 2:06.25. Joe Moran was second and Fighting Bob third. The race was over a fast track in the presence of the largest crowd in the history of the Derby. The record for the class is 2:06.4, made by Lient Gibson in 1906. The value of the Derby to the winner is \$50,000.

GERMAN WAR SCARE REAL

Distinguished Visitor Here Says King's Death will Have Disastrous Effect.

Brigadier General E. A. Grove, C. B. of Surrey, England, arrived in the city last night. The distinguished general is on his way home after a fishing trip to New Zealand. "It is a well-considered opinion that either 1912 or 1913 will be a fatal year in the history of the Empire and the world," said General Grove. "The German war scare is not a figment of the imagination. It is very real. The death of King Edward, coming when it did, will have a disastrous effect. He was the premier diplomat in Europe, and I fear that with his influence removed the political affairs of the country may assume a grave aspect."

General Grove has visited Canada before, but this is his first trip through the west. He will be in the city for a few days.

Edmonton Furriers.
The Edmonton Exhibition directors wish to notify horsemen throughout the province that entries for the Edmonton Furriers' race, scheduled for two years in July, within 24 hours of information being laid against him; by second wife, whom he only married last Wednesday. Watt has a wife and family in England of which the bride became aware through neighbors.

THE DAY IN STRATHCONA

Budget of News from the City on the South Bank of the River

Mr. and Mrs. J. M. Douglas are expected home from Ottawa the latter part of the week.

The W.C.T.U. will meet on Friday at three o'clock at the home of Mrs. Hoxton.

A meeting of the executive committee of the city household league called for tonight at eight o'clock for the purpose of drawing up a schedule and arranging a constitution.

The Strathcona Board of Trade has decided to send two delegates to the annual meeting of the associated boards to be held in Brandon next month.

Saskatchewan avenue is being graded at the university grounds. The council is contemplating the completion of the grade of the present avenue from Sixth street to the University grounds.

A banquet will be held in the Baptist Church on Thursday evening for all those interested in Bible study. The opportunity of saying farewell to the pastor, who leaves shortly on a six months' trip to the East, will be given.

A dance will be given on Friday, May 13th (Arbor Day) in the Odd-fellows' Hall under the auspices of the city household league. The patronesses are Mrs. S. Wilson, Mrs. J. J. Duggan, Mrs. F. C. Jamieson, Mrs. R. H. MacDonald, and Mrs. McAllister. Committee is composed of Messrs. Morris, Forsythe, Sampson, Galt, and others. An orchestra will provide the music.

Mr. Pitzer, who with Geo. Cornell had some harrowing experiences in the Grand Prairie country about a year ago, is in the city today. He is all officials in the Grand Prairie country, and is now in the West. Mr. Pitzer left for Saskatoon last night, and will also look into existing conditions.

On Saturday afternoon next the May meeting of the Alberta Women's Association will be held at the university at three o'clock. The ladies taking University courses and the girls of Standard VII. of the Collegiate will be guests of the Association. Prof. W. H. Alexander will address the association on the subject: "Some Words Incidentally on the Higher Education of Women."

Council Meeting.

Members present: Mayor Duggan, Aldermen Pollard, Bush, Congdon, Calder, Richards, Tipton, Donnan, and city engineer.

R. B. Owens, provincial and sanitary engineer, wrote the council requesting an account of the water and sewer connections in the city. The communication was referred to the city engineer.

A communication was received from the manager of the Bank of Montreal, Calgary, requesting the city's order for cement required for the summer's paving. Price \$350 per bulk. Return to be made to the committee.

A petition for paving from Whyte avenue to First street south on Main street, with litholithic pavement. Referred to public works committee.

An invitation was received from Rev. W. R. George to the council to a memorial service for the late King in Holy Trinity Church. The council decided to attend in a body.

The following accounts, totalling \$189.72, were ordered paid: Strathcona, Carriage Co., \$3.00; Frank Cowles, \$28.45; City Livestock, \$1.00; Douglas Bros., \$41.45; A. H. Richards, \$9.00; Ross, \$4.00; D. H. \$6.20; A. G. Baillie, \$26.50; O'Brien Dale Lumber Co., \$1.00; J. G. Galt, \$1.00; \$3.00; Edmonton City Dairy, \$1.20; McLean & Co., \$1.00; J. D. Hutton, \$2.00; Buchanan & McDonald, \$16.75; Johnston & Johnston, \$35.00; Provincial Government, \$4.00; Strathcona Coal Co., \$114.14; R. Wainwright, \$12.50; A. Gray, \$6.00; J. D. Foster, \$21.50; Edmonton Printing & Publishing Co., \$21.00; Blain & Co., \$0.15; Standard Plumbing Co., \$80.52; Great West Saddlery, \$6.75; Harrison, \$0.45; Canadian Rubber Co., \$24.00. Total, \$1,897.72.

The account from the Strathcona Coal Co. amounting to \$320 for coal for the power house was left over until next week.

Ald. Richards for the fire and light committee reported that Contractor Eaton would continue work on the new fire hall commencing in the morning of Wednesday.

J. D. Foster, the assessor, reported the completion of the making out of the assessment roll and requested the adoption of the same. Moved by Ald. Bush, seconded by Ald. Congdon, that the council as a whole be appointed a committee to take up the matter of the report of the assessment roll. That the said committee meet on Wednesday night to settle the matter; hour, eight o'clock.

Report from the city engineer regarding the work that would be done by A. C. Potter, engineer, for the sum of \$200. He will go into the question of sewage and treat the question exhaustively. Mr. Potter requested the payment of \$250 now and the balance on the completion of the work. The mayor was instructed to sign a cheque for the amount.

An enquiry from Ald. Tipton regarding the building of signboards within the fire limits. It was reported that the council did not approve of this.

The bylaw concerning the public market and weigh scales received its third reading, and the council went into a committee as a whole to consider it. It was then taken up clause by clause and passed. The bill was adopted with few changes.

The water and sewer committee was empowered to attend to the leaks in the water pipes on Whyte avenue east and west, where the road is in a bad condition on account of the water oozing from these leaks. The leaks were due to first, the soft condition of the trench, and also some inferior pipe had been used.

Mr. D. Alton then addressed the council on the relative value of wood and iron pipes for water. He quoted the difficulties in the use of iron pipe and in places where wood and iron pipes are both in use the cities are pleased with the wooden pipe. Portage la Prairie and Leith-bridge.

A new specimen of improved wooden pipe was shown. This pipe is coated with a covering of barfay and dipped again in tar. This forms a first-class pipe and the cost of this is cents a foot more than the old pipe.

Moved by Ald. Tipton, seconded by Ald. Congdon, that a committee composed of the city solicitor, secretary-treasurer and mayor be formed to formulate and cable a message of condolence to Queen Alexandra on account of the death of our beloved sovereign, King Edward VII.

Council adjourned until Wednesday night at eight o'clock.

Iowa Lumbermen Here.

R. H. Finkbine, Des Moines, Iowa; R. G. Berry, Spennock, Iowa; and G. W. Thomas, Carroll, Iowa, are all in the city today. The three gentlemen are all officials in the Green Bay Lumber Company of Iowa. This company has a half a hundred lumber mills all over the state of Iowa and adjoining states, and it is understood they are up here to see what opportunities Alberta offers for the lumber industry, and if they are favorably impressed, they will establish branches here.

Bouillon Ready for Work.

For the first time in a good many months, the office of the Public Works Commissioner in the city hall was occupied in the morning.

A. V. Bouillon, the new commissioner and general manager of the public utilities of the city, arrived from Seattle last night, and took his office this morning.

"Yes, I'm ready for work," said Mr. Bouillon, "and as I have no other work to claim my attention, I shall be able to give undivided concern to the city which will now become my home."
